Grinchy Slime

Pour the [green glitter glue](#) into a small bowl.

Fill the empty bottle of glue with warm water and add to the glue.

Mix until the glue and water are combined.

In another bowl, mix about 1/2 a cup of water and a teaspoon of [Borax powder](#).

Stir until the Borax is dissolved. Add your water beads to this mixture, if you are using them.

Wait for the beads to expand before moving to the next step (this can take about an hour).

Add the Borax water to the glue water and mix.

In about 60 seconds, the glue will transform into stretchy slime.

SALT DOUGH GRINCH CHRISTMAS ORNAMENTS

1 1/2 cup all purpose flour

1/2 cup salt

1 tbsp vegetable oil

2/3 cup warm water

cookie cutters (large and small) Grinch or other shapes

straw

green, pink and white acrylic paints

markers

string

clear Modge Podge (or other water based craft project sealer)

Whisk together the flour and salt in a large bowl. Make a well in the middle and pour the oil and water into the center of the well.

Use a wooden spoon to stir all the ingredients together, until the dough forms. Roll out the dough on a lightly floured surface. Roll to about 1/8" thickness. Cut out at least 5 large circles and 15 small circles. Use the straw to cut out a hole for the ornaments to hang from.

Bake the ornaments on a baking sheet, in a 250°F oven for 2 hours. Remove from the oven and let cool on a rack.

Have kids paint the crafts night of your festival and take them home.

Create above cut out. Use tennis balls, ping pong balls, or pompoms to toss into each hole. Have varying size prizes to give out based on scores. (or not 😊)
