
CHURCH PROMOTION

Bulletin Announcement

GENERAL GROUP ENGAGEMENT:

This bulletin announcement will be focused on encouraging groups within your church to pre-schedule their teams to join. This could be focused on small groups, business groups, etc.

Promotion Timeline: March-April

Operation Sandbag: “Our Church” will be partnering with SERVE 6.8 to intentionally love and serve our mountain neighbors this spring by filling 15,000 sandbags that will be used to protect structures and roadways from localized flooding. We need you, your small group, local business, and community connections to register to serve together today! Learn more at serve68.org/disaster-serve

(You can also include our serving link (serve68.org/disaster-serve) on your website and send people through your normal platforms)

JOIN THE CHURCH REGISTERED GROUP:

This bulletin announcement will be focused on encouraging people at your church to sign up to serve with your church registered sandbagging shift! To set this up, you will contact Ashlee to setup a shift, then you can promote within your church.

Promotion Timeline: 2-3 weeks before your sandbagging shift

Come join the church family as we serve on “serving date and time” to fill sandbags with SERVE 6.8! This effort will help us love and serve families impacted by localized flooding in the mountains. We need “#” to help, so sign up today! **include your registration process

*An important note, this isn't the best opportunity for children. Children under the age of 14 can not participate with Operation Sandbag. There are a few opportunities for those 14 and younger to help with hospitality. If you have many young families and young children, another volunteer role could be to hold childcare at your church to free up parents and teens to go serve.

HELP AS AN INDIVIDUAL:

You would use this bulletin to generally promote to have volunteers join a larger team to come sandbag or help with hospitality. These volunteers will be used to add additional strength to the registered groups.

Promotion Timeline: April-May

Operation Sandbag: “Our Church” partners with SERVE 6.8, a local organization committed to loving and serving our mountain neighbors. They will be filling 15,000 sandbags that community members can use to protect structures and roadways from localized flooding. They need your help! Register today at serve68.org/disaster-serve
